

NCH Hospital Charges

As of May 1, 2023

Price Transparency Disclaimer

Please be aware that a listing of gross charges is not an estimate of patient responsibility.

Patient responsibility is calculated based on the allowed amounts as determined in the contract between the patient's insurance, the provider and the patient's benefit plan and whether or not the patient has met annual deductible amounts indicated in his benefit plan.

A listing of gross charges is also not relevant for patients without insurance, as patient due amounts are calculated after self-pay discount and financial assistance, if appropriate.

The CDM File in Machine-Readable format is included within the URL below:
